

## STATEMENT OF WORK

### Background:

As part of the larger INL effort on supporting the reform of prosecutorial service in Ukraine, the Post is supporting development of the Crimean Prosecutor's Office (CPO). After the Crimea was annexed by Russia in 2014, the CPO was transferred to Kyiv, where its main duty was documenting crimes committed on the temporary occupied territory of Crimea. With the increasing number evidences and cases CPO accumulated during the past six years, CPO is seeking INL's assistance in building a Digital case lab and in procuring necessary IT equipment in order to be able to digitalize all the materials and transfer them into a single digital evidence database. This will allow the GOU to better investigate crimes committed on the temporary occupied territory of Ukraine as well as to prosecute perpetrators with the international courts.

**REQUIREMENTS:** A vendor shall supply IT equipment with the following specifications. The equipment must be new, high-quality, and officially imported to Ukraine.

**WARRANTY:** Standard manufacturer or seller warranty is required unless specified otherwise in CLIN description. Service centers for the requested equipment must be available on the territory of Ukraine.

**VAT:** This is technical assistance project and is VAT exempt.

**DELIVERY AND DEADLINE:** The requested items must be delivered to the Crimean Prosecutor's Office to Dilova street 24, Kyiv within 30 days from contract award.

The offer must include the costs of the products and delivery.
